

Alan Ray Rogers

March 15, 2018

Address	Phone, Email
Dept. of Anthropology University of Utah Salt Lake City, UT 84112	(801) 581–5529 office (801) 581–6252 FAX rogers@anthro.utah.edu

Education

1974 B.A. Dept. of Anthropology, University of Texas at Austin.
1978 M.S. Dept. of Anthropology, University of New Mexico.
1982 Ph.D. Dept. of Anthropology, University of New Mexico.

Areas of Specialization

Population genetics; evolutionary ecology

Positions and honors

3/16–12/20 Scientific Advisory Board, Max Planck Institute for Evolutionary Anthropology.
7/94– Professor, Dept. of Anthropology, University of Utah.
4/98– Adjunct Professor, Dept. of Biology, University of Utah.
3/08–4/10 Committee on the Earth System Context for Hominin Evolution, National Research Council of the National Academies.
10/96–5/98 Associate Editor of *Molecular Biology and Evolution*
8/96–7/97 Research Centre, King’s College, Cambridge
7/94–06 Adjunct Associate Professor, Dept. of Human Genetics, University of Utah.
7/91–6/94 Associate Professor, Dept. of Anthropology, University of Utah.
1991 Superior Research Award (Junior Category), College of Social and Behavioral Science, University of Utah.
7/88–6/91 Assistant Professor, Dept. of Anthropology, University of Utah.
8/85–6/88 Research Assistant Professor, Dept. of Anthropology, University of Pittsburgh.
9/83–8/85 Assistant Professor, Dept. of Anthropology, SUNY-Albany

Publications

Research Funding

- 2016–2019 NSF BCS 1638840. “Effect of archaic admixture on modern human adaptations.” (AR Rogers, PI) Amount: \$175,000.
- 2013 NSF BCS 1321412. “Did hunting or climate change cause a Late Holocene bottleneck in California Tule Elk? An integrated test using ancient DNA and stable isotopes.” (J Broughton, PI; AR Rogers & JB Coltrain, Co-PIs) Amount: \$203,716.
- 2005 NSF 0343198. Demography of the Tchimba of Northwest Namibia (AR Rogers, PI). Funded Steven Josephson’s field work. Amount: \$30,314.
- 2002 NSF SBR–0218338. Collaborative research: mobile elements and primate evolution (LB Jorde, PI). Provides summer salary for 5 years, and paid for a computer programmer.
- 1999 NIH GM59290 Population genetics of mobile elements. (LB Jorde, PI) provides 50% release from teaching for 4 years.
- 1995 NSF 9512178. “Acquisition of Equipment for Automated DNA Sequencing.” (LB Jorde, PI) Amount: \$112,932.
- 1993 Supplement to NSF grant DBS–9310105 for purchase of PCR machine. Amount: \$5,400. [The University of Utah contributed an additional \$5,400.]
- 1993 NSF DBS–9310105. 2-year continuation of “Molecular Genetic Studies of Human Evolutionary History.” Amount: \$192,522.
- 1992 NSF DBS–9211255 1-year project “Molecular Genetic Studies of Human Evolutionary History.” Amount: \$90,709.
- 1991 Grant from the College of Social and Behavioral Sciences, University of Utah, for a study of age-differences in rates of time preference. Amount: \$1,200.
- 1988–1993 NIH grant MGN 1 R29 GM39593: Structured emigration and genetic population differences. Funding for first year: \$57,805.

Submitted Proposals

- 2012 NSF BCS 1321412. Role: Co-PI. Did hunting or climate change cause a Late Holocene bottleneck in California Tule Elk? An integrated test. Status: funded.
- 2014 NIH 1R01GM115942-01. Role: PI. Estimating population history from linkage disequilibrium. \$864,222. Status: denied.
- 2015 NIH 1R01GM115942-01A1. Role: PI. Estimating recent population history from genetic data. \$1,043,00. Status: denied.
- 2015 NIH 1R01GM120449-01 . Role: PI. Effect of archaic admixture on human health. \$1,192,000. Status: denied.
- 2016 NSF DEB 1631636. Role: PI. Preliminary proposal: Estimating gene flow from genetic data. Status: not invited
- 2016 NSF BCS 1638840. Role: PI. Effect of archaic admixture on modern human adaptations. \$329,509. Status: funded at \$175,000.
- 2016 NIH 1R01GM120449-01A1. Role: PI. Estimating the history of population size and admixture. Status: denied.

Presentations

- Oct 2014 How population growth affects linkage disequilibrium. American Society of Human Genetics. San Diego, CA. (poster)
- Nov 2014 Bias in estimates of archaic admixture. Utah Molecular Evolution Retreat. Deer Valley, UT.
- Oct 2015 The recent history of human population size. American Society of Human Genetics. Baltimore, MD. (poster)
- Apr 2016 Allele sharing between archaic and modern humans. American Association of Physical Anthropologists. Atlanta, GA.
- May 2016 Bias in estimates of archaic admixture. Society of Molecular Biology and Evolution Satellite Meeting on the Genetics of Admixed Populations. San Antonio, TX. (poster)
- Nov 2016 Legofit: a new estimator of the history of population size and admixture. Southwest Association of Biological Anthropologists. Arizona State University. (poster)
- April 2017 Genetic evidence for an archaic human diaspora. American Association of Physical Anthropologists. New Orleans, LA.
- July 2017 The origin of Neanderthals and Denisovans. Society for Molecular Biology and Evolution. Austin, TX.
