SECTION II**I. TEACHING RESPONSIBILITIES/ASSIGNMENTS****UNIVERSITY OF UTAH, COLLEGE OF NURSING**

Application of Outcome Measures for Clinicians (NURS7700). 1.5 Credits. Spring, Summer 2019, 2020, 2021, 2022. This course prepares advance practice nurses to design and implement processes to evaluate outcomes of practice, practice patterns, and systems of care within a practice setting, health care organization, or community. In this course students will learn how to collect appropriate and accurate data to generate evidence for nursing practice.

Foundations of Evidence Based Practice (NURS6700). 1.5 Credits. Fall 2017, 2018, 2019, 2020, 2021, 2022. This course is focused on the process and components of evidence-based practice. Students differentiate between significance statements, problem statements, and clinical questions. The process of locating, describing, appraising, and leveling evidence is covered.

Program Planning, Management and Evaluation (NURS7525). 3 Credits. Spring 2018, 2019, 2020, 2021, 2022. Students obtain in depth knowledge of program planning, implementation, management, and evaluation to drive system level changes in health care delivery.

UNIVERSITY OF WASHINGTON, SCHOOL OF NURSING

Evidence Based Practice & Clinical Inquiry Winter (NURS403). 5 credits. Fall, 2016, Bothell campus. This course develops beginning competence in accessing and evaluating scientific knowledge as a foundation for promoting evidence-based practice in nursing care. We will examine components of the process of nursing inquiry as a tool to advance nursing knowledge and to promote evidence-based practice.

Lifespan Development (BHS200). 5 credits. Autumn, 2015, Bothell campus. Focuses on quantitative and qualitative growth and developmental changes across the lifespan from conception to end of life. Emphasizes influence of changes on health and how developmental theory and research guide health promotional efforts. Uses a contextual perspective to analyze of how interactions between biology and environment ("nature" and "nurture") contribute to developmental outcomes.

Learning Wellness: Healthy Ways to Respond to Stressful Student Life (NURS204). Spring 2016, Seattle campus. Examine the intimate connection of body, mind and spirit, as well as the epidemic of 'super stress' challenging our health. Provide an overview of methods to respond to stress in health-producing ways. Learn ways to manage time, make healthy choices, and practice wellness. The evidence for each method will be discussed and experiential components provided.
