

Curriculum vitae: Neil James Vickers

Contact Information:

School of Biological Sciences,
University of Utah,
257 S. 1400 E., Rm. 201,
Salt Lake City, UT 84112.

tel: (801)-585-1930

fax: (801)-581-2174

e-mail: n.vickers@utah.edu (research/lab business)
director@biology.utah.edu (SBS business)

Academic Appointments:

Jul 2020 – present: Co-Director, School of Biological Sciences, University of Utah
Jul 2008 – present: Professor, Department of Biology, University of Utah.
Sept 2018 – Dec 2019: HHMI UPSTEM fellow
Feb 2016 – Jun 2016: Visiting Fellow, Dept. of Mechanical & Aerospace Engineering, Princeton University
Jan 2008 – Jun 2014: Chair, Department of Biology, University of Utah.
Jul 2004 – Jun 2008: Associate Professor, Department of Biology, University of Utah.
Sept 1998 – Jun 2004: Assistant Professor, Department of Biology, University of Utah.

Other Appointments:

Jan 2021 – present: Chair, Board of Trustees, Salt Lake City Mosquito Abatement District
Aug 2019 – present: Trustee, Board of Trustees, Salt Lake City Mosquito Abatement District

Academic Training:

January 1995-September 1998: Postdoctoral Research Associate with Drs. J.G. Hildebrand and T.A. Christensen at University of Arizona.
April 1993-December 1994: Postdoctoral Research Associate with Dr. T.C. Baker at Iowa State University.
April 1992-March 1993: Postdoctoral Research Associate with Dr. T.C. Baker at U.C. Riverside.

Education:

April 1988-March 1992: Ph.D. Advisor: Dr. T.C. Baker, Department of Entomology, U.C. Riverside.
Dissertation title: 'Pheromone-mediated olfactory and behavioral mechanisms in the tobacco budworm, *Heliothis virescens* (F.).
June 1987. B.Sc. (Honours) (2nd Class, Upper division) in Biology. Imperial College of Science and Technology, London, England.

Grants Awarded (since 1998):

A. Extramural Research Grants & Supplements

Pending.

2020: NSF (IOS: Physiological & Structural Systems Cluster, Physiological Mechanisms & Biomechanics Program; ENG, CBET: Fluid Dynamics). Collaborative Research: Influence of Environmental Flow Conditions on Scalar-mediated Insect Flight Behavior. University of Utah: direct costs: \$221K, indirect costs: \$104K. (Total direct/indirect costs ~ \$608K).

Curriculum vitae: Neil James Vickers

Awarded.

- 2020:** Pacific Southwest Center of Excellence in Vector-Borne Diseases. Orientation Behavior of Western Tree Hole Mosquitoes, *Aedes sierrensis* (Ludlow). \$25,000 graduate trainee grant (indirect costs waived). 07/01/2020 – 06/30/2021.
- 2012:** NSF – IOS (Activation). Integration of odor stimulus features during olfactory processing. \$425,000; 03/01/12 – 02/28/15 (no-cost extension: 12/31/2016). \$6000 REU supplement awarded July 2012.
- 2011:** NSF – IOS (Behavioral Systems). Doctoral Dissertation Improvement Grant: Olfactory modulation of thermoregulation and flight in moths. \$10,850; 09/15/11 – 08/31-13
- 2007:** NSF IOB. REU supplement to Genetic control of male moth behavior and olfaction. \$6,000
- 2007:** NSF, IOB. Collaborative research: Discrimination of complex mixtures in olfactory signaling. \$340,000; 05/01/07-04/30/10 (no-cost extension: 04/30/11)
- 2005:** NSF, IOB. REU supplement to Genetic control of male moth behavior and olfaction. \$11,500
- 2004:** NSF, IOB. Genetic control of male moth behavior and olfaction. \$323,095; 07/15/04 – 06/30/07
- 2001:** NIH, NIDCD. Discrimination of complex mixtures in olfactory signaling. \$332,763 (sub-contract); 02/01/01 – 01/31/04 (no-cost extension thru' 07/31/04). (P.I. C.E. Linn Jr. Cornell University. Total award: \$760,263)
- 2000:** NIH, NIDCD, James A. Shannon Director's Award. Discrimination of complex mixtures in olfactory signaling. \$50,000; 04/01/00 – 03/31/01 (P.I. C.E. Linn Jr. Cornell University)
- 2001:** NSF, IBN. REU supplement to Collaborative Research: Neuroethology of olfactory evolution in moths. \$5000
- 1999:** NSF, IBN (Sensory Systems). Collaborative Research: Neuroethology of olfactory evolution in moths. \$265,000; 9/15/99 – 9/14/02 (no-cost extension thru' 08/31/04)
Collaborator: T.C. Baker. \$81,749 awarded separately to Iowa State University
- 1999:** USDA NRICGP seed grant. Behavior and olfaction of courtship pheromones in female heliothine moths. \$46,115; 09/15/99 – 09/14/01 (no-cost extension thru' 09/14/02)

Recent Declined Proposals

- 2019:** NSF-Graduate Research Fellowship Program. The Effects of Breath Composition on Female Mosquito Behavior. \$135,000 (no in-direct costs permitted). 08/01/2020 – 07/31/2023. (submitted 10/21/2019).
- 2018:** National Institutes of Health (NIAID – Vector Biology). November*. Influence of Atmospheric Flow Conditions on Scalar-mediated Mosquito Behavior. R21 Developmental/Exploratory Research. Direct costs: \$275,000, total costs: \$427,557. 09/01/2019 – 8/31/2021.
*This grant received a panel score on its previous submission (Feb. 2018) but the revised version submitted in November 2018 was declined in March 2019 without panel discussion.
- 2018:** National Institutes of Health (NIAID – Vector Biology). February. Influence of Atmospheric Flow Conditions on Scalar-mediated Mosquito Behavior. R21 Developmental/Exploratory Research. Direct costs: \$275,000, total costs: \$427,834. 01/01/2019 – 12/31/2020. Received panel score but was above the funding cut-off.

B. Intramural Research & Equipment Grant Awards

- 2011:** Research Instrumentation Funds (University of Utah). Grant for acquisition of camera for live-cell calcium imaging. \$57,500
- 2005:** Multimodal sensory integration in the moth brain. University of Utah Research Foundation (Seed Grant). \$27,000; 06/01/05 – 05/31/06

Curriculum vitae: Neil James Vickers

1999: Olfactory basis of courtship behavior and female choice in moths. University of Utah Research Foundation (Seed Grant). \$23,874; 06/01/99 – 05/31/01

- USDA IAABBR, Gainesville, Florida, April 1994. Filaments and flying EAGs: The neuroethology of pheromone-mediated flight in *Heliothis virescens* males.
- ACChemS Annual meeting, Sarasota, Florida, April 1994. Reiterative responses to single strands of odor promote sustained upwind flight and odor source location by moths.
- Nebraska Behavioral Biology Group, Creighton University, Omaha, April 1994. Filaments and flying EAGs: The neuroethology of pheromone-mediated flight in male moths.
- Department of Entomology, Iowa State University, September 1993. Filaments and flying EAGs: The pheromone-mediated flight of male *Heliothis virescens*.
- ARL, Division of Neurobiology, University of Arizona, June 1993. Pheromone-mediated flight behaviors of the tobacco budworm.
- Department of Entomology, U.C. Riverside, November 1992. Pheromone-mediated flight in *Heliothis virescens*.

Voluntary or submitted conference talks (presented by N.J. Vickers):

- International Congress of Entomology, Orlando, September 2016. Function of Lateral Cell Cluster Projection Neurons in Moth Olfactory Processing.
- Entomological Society of America (ESA), Reno, 2008. An integrative approach to understanding divergence in male moth pheromone preference.
- Biology Retreat, Snowbird, October 2005. Gone with the wind: locating an odor source under variable visual conditions.
- Biology Retreat, The Canyons, August 2001. Poking a nose in where it doesn't belong.
- Neuroscience mini-symposium, Snowbird, October 2000. Odor-blend discrimination in two closely-related moth species.
- Biology Retreat, Alta, October 1998. The smell of 'fear'omones by scrambled bug brains.
- International Symposium on Olfaction and Taste XII/Association for Chemoreception Sciences XIX, San Diego, July 1997. A combinatorial model of odor discrimination using a small array of contiguous, chemically-defined glomeruli.
- ESA, Las Vegas, December 1995. Comparative physiology and morphology of pheromone-processing projection interneurons in two species of Heliothine moth.
- ESA, Dallas, December 1994. Pheromone-mediated flight in *Heliothis virescens*: Effects of filament concentration and blend quality.
- ESA, Indianapolis, December 1993. Frequency of sex pheromone filament contact determines straight versus zigzagging upwind flight in *Heliothis virescens*.
- ESA, Baltimore, December 1992. Correlation between electroantennogram activity and pheromone-mediated flight in the tobacco budworm.
- ESA, Reno, December 1991. The neuroethology of pheromone response in male *Heliothis virescens*.
- ESA, New Orleans, December 1990. Experimentally generated pheromone plume structure affects male *Heliothis virescens* flight behavior.
- International Chemoreception Workshop on Insects (ICWI), Kauai, October 1990. An experimentally generated plume reveals interesting aspects of odor perception in *Heliothis virescens*.
- ESA, San Antonio, December 1989. Aspects of the visual control of flight during pheromone-mediated upwind progress in *Heliothis virescens*.
- ESA, Louisville, December, 1988. Pheromone-mediated flight control in *Heliothis virescens*.
- ICWI, San Diego, October, 1988. Antennal ablation and its effect on upwind progress in male *Heliothis virescens*.

Co-authored talks (presenter indicated by *):

- American Physical Society, Division of Fluid Dynamics, November 2019. Mimicking atmospheric flow

Curriculum vitae: Neil James Vickers

conditions to examine mosquito orientation behavior. Huang, Y-C*, Vickers N, Hultmark M. American Physical Society, Division of Fluid Dynamics, November 2018. Mimicking atmospheric flow conditions to examine mosquito orientation behavior. Huang, Y-C*, Vickers N, Hultmark M. American Physical Society, Division of Fluid Dynamics, November 2017. Mimicking atmospheric flow conditions to examine mosquito orientation behavior. Huang, Y-C*, Vickers N, Hultmark M. 16th European Turbulence Conference Stockholm Sweden, August 2017. Experimental investigation of a point source scalar in large scale turbulence. Huang, Y-C*, Vickers N, Hultmark M. Entomological Society of America, Ft. Lauderdale, December 2005. Olfactory receptor neuron responses from *Heliothis subflexa* x *Heliothis virescens* hybrid males. Baker TC*, Quero C, Ocheing' S, Vickers NJ. European Symposium on Insect Taste and Olfaction, Sardinia, Italy, November 2005. Behavior and ORN responses of hybrid heliothine moths explained by co-expression of two sex pheromone receptors on a single type of ORN. Baker, TC* and Vickers, NJ. International Society for Chemical Ecology, Washington, D.C., August 2005. Heliothine moth olfaction. Baker TC*, Vickers NJ, Lee S-G AChemS, Sarasota, April 2003. Processing of odor blends in the insect antennal lobe. Kleineidam C*, Linn Jr. CE, Vickers NJ.

Poster Presentations:

Association for Chemoreception Sciences (Florida).

- April 2017. Vickers NJ, Fogarty-Celestino C, Lee S-G, Kleineidam C, Stagg J. Functional properties of inhibitory olfactory projection neurons in the moth antennal lobe.
- April 2010. Lee SG, Poole KR, Linn, Jr. CE, Vickers NJ. Behavioral and olfactory consequences of slipping imaginal discs between two moth species.
- April 2006. Hillier NK, Hamilton J, Horovitz J, Vickers NJ, Gould FL. Shifts in the use of two aldehydes and the evolution of olfactory communication in heliothine moths. Lee S, Carlsson MA, Hansson BS, Vickers N, Baker TC. Comparative functional morphology of male-specific glomeruli in two heliothine moth species, *Helicoverpa zea* and *Heliothis subflexa*.
- April 2005. Hillier NK, Vickers NJ, Groot AT, Bennett J, Gould FL. A simple shift in peripheral olfactory specificity is associated with divergent male moth behavioral preference.
- April 2004. Hillier NK, Vickers NJ, Linn C. Inter- and intra-species antennal imaginal disc transplants: behavior, sensory and central olfactory neurophysiology. Vickers NJ, Hillier K, Groot A, Gould F. Olfactory communication: evolving new blends and novel preferences.
- April 2003. Vickers NJ. Genetic control of olfactory characteristics in male moths. Hillier NK and Vickers NJ. The role of heliothine hairpencil compounds in female *Heliothis virescens* behavior and mating.
- April, 2002. Kleineidam C, Linn Jr. CE, and Vickers NJ. Representation of pheromone blends by projection neurons in heliothine moths.
- April, 2001. Linn Jr. C and Vickers N. Effect of antennal grafts between two moth species on olfactory processing of sex pheromones.
- April, 1999. Vickers NJ, Christensen TA, Baker TC and Hildebrand JG. Odor plume structure and dynamics: electrophysiological measurement and central processing.

§ also presented at Intermountain Chapter for SFN. Provo, UT. Oct. 2001.

Scientific Memberships and Affiliations (current)

2016 Association for Chemoreception Sciences
1998 Program in Neuroscience, University of Utah
1998 Genetics Training Grant, University of Utah (participant)
1995 International Society of Neuroethology
1991 Sigma Xi
1987 Associate of the Royal College of Science

Teaching:

Classes Taught:

Undergraduate Courses

BIOL. 2420, Human Physiology (Fall semester). 4 CR lecture course. Fall 2019 (co-taught with Dr. Franz Goller).

BIOL. 3325, Comparative Physiology Laboratory. 2002 – 2014; 2017 - current (Spring semester). 3 credit laboratory course. Stand-alone laboratory course, includes one lecture and one discussion with students attending one of two laboratory sections each week.

BIOL. 3320, Comparative Physiology. Spring 2000 & 2001. 3 credit lecture course.
Spring 2000 (co-taught with Dr. David Carrier); Spring 2001 (co-taught with Dr. Franz Goller)

BIOL. 3325, Comparative Physiology Laboratory. Spring 2000 & 2001. 1 credit laboratory course.
Spring 2000 (co-taught with Dr. David Carrier); Spring 2001 (co-taught with Dr. Franz Goller).

BIOL. 3480/5480, Biography of an Urban Stream. Contributed lecture (summer 2017)

BIOL. 3960, Faculty Research seminar (Fall 2016 - 2019). Contributed lecture

BIOL. 4955 (Individual Research - sponsor). 1 student (Fall 2019)

BIOL. 4955 (Individual Research - sponsor). 1 student (Fall 2020)

Biology Honors thesis reviewer (ad hoc – 1 review, Spring 2018)

Graduate Courses

BIOL. 7964, Advanced Topics in Ecology & Evolution, organizer and lecturer (9 students). Spring 2019

BIOL. 7964, Advanced Topics in Ecology & Evolution 2010 – 2018: Contributed lecture on Behavioral mechanisms.

BIOL. 7406-001. Speakerfest, EEOB graduate students. Course coordinator, Fall 2017

BIOL. 7963-2, Graduate Core Seminar Fall 1999: “Sixth Senses” in Animals, an integrative discussion of specialized sensory capabilities. 7 participants (co-taught with Dr. Franz Goller).

BIOL. 7963-1, Graduate Core Seminar Spring 1999: Animal Communication: Physiology, Behavior, Ecology, and Evolution. 15 participants (co-taught with Dr. Franz Goller).

Curriculum vitae: Neil James Vickers

Trainees:

Postdoctoral Trainees:

Christoph Kleineidam, Ph.D. (University of Würzburg, Germany). August 2001-December 2002. Current position: Lecturer (non-tenure track), University of Konstanz, Germany

N. Kirk Hillier, Ph.D. (Memorial University, Newfoundland, Canada). October 2001- June 2007. Current position: Professor (tenure-track), Dept. of Biology, Acadia University, Canada.

Seong-Gyu Lee, Ph.D. 2007 (Penn State University). August 2007 – April 2014.

José G. Crespo, Ph.D. 2014 (University of Utah). January 2014 – August 2015.

Deidra Jacobsen, Ph.D. 2019 (Cornell University). Dr. Jacobsen is working independently under my supervision. September 2020 – current.

Graduate Students:

Doctoral Students:

Christine Fogarty-Celestino B.S. SUNY Geneseo (2000). June 2001 – August 2006 (Neuroscience Program, Graduate Research Fellowship 2003-2004). Current position: High-school science teacher and Director of Academy of Science, Juan Diego Catholic High School, Draper, Utah.

Awards/Recognition (post-graduation):

Utah Biology teacher of the year (2013)

Recipient of 2015 Governor’s Medal of Science (education)

José G. Crespo August 2007 – December 2013 (Biology Program, Graduate Research Fellowship (2011-2012)).

Awards/Recognition (as graduate student)

NSF Doctoral Dissertation Improvement Grant (2011)

Best Student Poster, Society for Integrative & Comparative Biology (2011)

Sigma Xi Grant-in-Aid (2012)

Best Paper Award (Journal of Experimental Biology 215:2203-2209) – Appreciation for the Biology of Insect Pests, Ambrosia Symbiosis Research Group and TREE Foundation (2012)

Kirsten Meredith August 2018 – current

Neuroscience Program Rotation students: Fred Federer, Christine Fogarty, Paula Lombardo, Linda Kübler, Arie Sitthichai.

Post-graduate students (with ensuing training when known):

Matthew Pond (MD, George Washington Medical School), Paul Dunlavy (MD), Allison Locatelli (Director Research Operations, VP Research Office, University of Utah), Lindsey Enright, Jeffery Stagg (MD, Texas Tech Medical School, El Paso; currently Urology, Mayo Clinic Phoenix, AZ)

Undergraduate Students:

Alan Pack, Brooke Rhead, Harmony Baldwin (BioURP), David Kelly (BioURP, Steven D. Durrant Scholarship, Golden Key Scholarship, currently plastic hand surgeon, Phoenix, AZ), Keri Swearingen, James Celestino, Kim Iceman (BioURP, Biology Dept. Scholarship 2003-2004, 2004-2005, currently Assistant Professor, University of Louisville), Brittany Sweeten, Mara Grimes-Graeme, June-woo Park, Christine Sembrano, Katy Schramm, Heidi Paine (BioURP), Alyssa Draper, Meggan McDowell (ACCESS), Jeffery Stagg, Madison Finch, Nathan Smith, Laura Slusser (ACCESS), Dustin Ragland, Vista Lloyd (UROP, Summer 2018), Kirsten Meredith, Chris Marston (UROP, 2018), Alex Moss, Sophia Perez (Honors thesis

Curriculum vitae: Neil James Vickers

research, Spring 2020), **Amelia Slusser 2018 – present** (Ryan Watts scholarship, Spring 2018), **Ruby Jane Mathewson** (Biol. 4955, Spring 2021), **Kaia Jay** (ACCESS, Spring 2021) (current students in bold),

High School Students:

Elena Gradillas (summer 2001, graduated UCSD 2006); Shawn Komlos (summer 2003, graduated University of Utah), Molly Wheeler (summer 2006, 2007, graduated University of Utah 2013), Cesia Dominguez

Visiting Scholars:

Yongjun Du, Wenzhou Medical College, China. February 2011. Single cell electrophysiology

Henry Fadamiro, Auburn University. 2007. Single cell electrophysiology.

Service Activities:

Opponent for examination of Mikael Carlsson Ph.D. dissertation, October 2003: A sensory map of the odour world in the moth brain. Swedish University of Agricultural Sciences, Alnarp, Sweden.

Reviews for external RPT Decisions:

Cornell University (1), University of Oklahoma (1), Swedish University of Agricultural Sciences (1), Notre Dame University (1), University of Saskatchewan (1).

Departmental Committees:

Graduate Student Committees. (Ph.D., Biological Sciences unless stated, year of completion in parentheses):

Current: Emerson Arehart (Adler), Alicia Boynton (Carrier), Chelsea Gosney (Caron), Jinzhi Li (Caron), Alex MacKenzie (Neuroscience, Caron), Kirsten Meredith (Chair).

Former: Kyephuong Luong (2020, Rose); Sarah Garcia (2018, Goller), José Crespo (Chair, 2014), Fred Federer (Neuroscience, 2010, Angelucci), Christine Fogarty (Chair, Neuroscience, 2006), Richard Green (2003, Rose), Thomas Hills (2002, Adler), Elizabeth Jarrell (left program 2008), Mark Lehmkuhle (Bioengineering, Normann, 2004), Kyphuong Luong (2020, Rose), _Dukgun Kim (MS, Clayton 2008), Stephen Odom (left program 2015), Stephanie Plamondon (Neuroscience, 2007, Rose), Craig Walker (2006, Maricq), Rebecca Walter (2007, Carrier), Sara Zala (2003, Goller).

General: Admissions (co-chair, 2006 – 2007), Auxiliary Faculty Oversight (2007), BioURP Steering (2003-2005), Curriculum (1999-2001), Communications (2001-2003), Computer (2002-2004), Executive (2004-2005, 2007), Safety (2003-2006), Teaching Labs (Spring 2005-2007). Outreach (2016-2017), Curriculum Reform Task Force (2016-2018), Alumni Relations/Development, Chair (2017-2020).

Retention, Promotion, & Tenure

Markus Babst (2017, promotion to Professor)

Sophie Caron (2018, 4th year formal review)

Elected Chair of SBS RPT Advisory Committee Chair 2019-2020 (Fall 2019: 4 formal reviews, 3 informal), 2020 -21 (established formal/informal committees, letter solicitations for formal reviews – appointed co-Director July 1, 2020 passed RPT Chair to Dr. John Longino).

Curriculum vitae: Neil James Vickers

Tenured Faculty 5th Year review

Biology Tenured Faculty Review (TFR) committee Spring 2018 (3 reviews)

Elected Chair of TFR committee Spring 2019 (5 reviews)

Search Committees: Biochemistry Search (2000-2001), EEOP (2004-2005).

College of Science committees: Convocation Committee - Biology Representative (2003), Science Day (Biology representative, 2007, 2016, 2017), College of Science Council (Aug. 2016- Aug. 2018)

Campus committees: Interdepartmental Program in Neuroscience, Graduate Admissions (1999-2006, co-chair 2000, chair 2001-2006).

Institutional Biosafety Committee (Aug. 2016-Jul. 2019)

Academic Senate (elected to serve Aug. 2018 – Jul. 2021).

Seminar Speakers Hosted:

Biology

Dr. Diana Six, Ecosystem & Conservation Sciences, University of Montana (February 2021)

Dr. Lindy McBride, Princeton University (March 2018)

Dr. Yehuda Ben-Shahar, Biology, Washington University (March 2011)

Dr. Bill Hansson, Evolutionary Neuroethology, Max Planck Institute, Jena, Germany (Spring 2007)

Dr. Karen Mesce, Entomology and Neuroscience, U. Minnesota (Spring 2006)

Dr. Robert Raguso, Biological Sciences, U. South Carolina (Spring 2005)

Dr. Fred Gould, Entomology, NCSU (Spring 2003)

Dr. Richard Zimmer, Biology, UCLA (Spring 2000)

Neuroscience

Dr. Tom Christensen, Neurobiology, U. Arizona (Spring 2005)

Dr. John Hildebrand, Neurobiology, U. Arizona (Spring 2001)

Grant Review Panels:

Pacific Southwest Center of Excellence in Vector Biology. March 2019. Written reviews of 3 proposals. Total # of proposals discussed by panel: 10

NSF, IOS – Activation pre-proposal panel (virtual panel). March 2014. Written reviews of 17 proposals. Total # of pre-proposals reviewed by panel: 62.

NSF, IOS – Activation pre-proposal panel. March 2013. Written reviews of 16 proposals. Total # of pre-proposals reviewed by panel: 91.

NSF, IOS – Neural Systems Cluster CAREER panel (virtual panel due to Hurricane Sandy). October 2012. Written reviews of 11 proposals. Total # of grants reviewed by panel: 60

NSF, IOS – Activation pre-proposal panel (virtual panel). March 2012. Written reviews of 19 pre-proposals. Total # of pre-proposals reviewed by panel: 32

NIH, CSR – Vector Biology. October 2010. Written reviews of 4 grants. Total # of grants reviewed by panel: 49

NSF, October 2007. Written reviews of 11 grants. Total # of grants reviewed by panel: 76

Curriculum vitae: Neil James Vickers

USDA, Organismal and Population Biology of Arthropods and Nematodes. March 2007. Written reviews of 17 grants. Total # of grants reviewed by panel: 100

USDA, Organismal and Population Biology of Arthropods and Nematodes. April 2006. Written reviews of 15 grants. Total # of grants reviewed by panel: 93

Peer reviews: manuscripts and grant proposals:

Past 4 years (2017 – 2020: 31 manuscripts peer-reviewed)

Since 1998

Total of over 170 articles peer reviewed for journals since appointment at University of Utah in 1998 (~ 8 reviews/year). Journals include Biological Bulletin, Brain Behavior & Evolution, Cell & Tissue Research, Chemical Senses, Current Biology, European J Neuroscience, J Chemical Ecology, J Comparative Neurology, J Comparative Physiology A, J Economic Entomology, J Experimental Biology, J Insect Behavior, J Insect Physiology, J Neurophysiology, J Neuroscience, Physiology and Behavior, Naturwissenschaften, PLoS – ONE, PLoS Computational Biology, Proceedings of the National Academy of Science, Proceedings of the Royal Society B, Royal Society Biology Letters, Science.

Grant Proposals: ad-hoc review (number of proposals reviewed in parentheses):

Great Lakes Fisheries Commission (1)

NSF – various Directorates (15)

USDA (2), USDA-SBIR (1)

Other Activities (in chronological order):

AChemS, Bonita Springs, FL 2017 (April) Symposium organizer: The Role of Multimodal Sensory Integration in Shaping Behavior Across Diverse Animal Taxa.

Association for Chemoreception Sciences Program Committee 2017, 2018, 2019

American Mosquito Control Association Annual meeting, Salt Lake City, UT 2021 (March, virtual meeting). Symposium organizer.

BioLuminaries & BioLuminaries Rx seminar organizer: series of talks by Biology alumni aimed at providing career information to current Biology undergraduates (2012 – 2013; 2018 – current)

2012: Loren Jensen, Zach Frankel (Utah Rivers NGO), Jeff & Jerry Nelson (Nelson Laboratories),

2013: Reshma Shetty (Gingko BioWorks), Doug Wyler (DDS), Ryan Watts (Denali)

2018: Jim McRea (CMC)

2019: Reshma Shetty (Gingko BioWorks), Carmen Bailey, Ole Jensen (Rx)

2021: Todd Alder, Heng Xie (IDbyDNA)

Sterling Scholar judge (February 2013 – 2015)

Salt Lake Valley Science and Engineering Fair Judge (Dept. of Biology scholarship): 2009 – 2013

Science Overnight orientation: 2009 – 2012

Academy of Math, Engineering and Science High School, science fair judge (Chair) March 2006 – 2010

Curriculum vitae: Neil James Vickers

College of Science Day: Workshop

Making Sense of Scents 1999 – 2001

Animal Orientation 2010

Making Sense of Smell 2015

Life Beyond the Classroom: Undergraduate Research in Biology 2016, 2017

Organizing Committee. Modulation of Chemosensory Signaling, Jackson Hole, WY Jan 2005

Chair, Local Arrangements Committee, Entomological Society of America Pacific Branch Meeting, Park City, June 24-27th, 2001.

Workshops attended

Increasing Recruitment of Women Faculty and Minority Graduate Students

1. IWiN: Increasing Women in Neuroscience (2-day Workshop for University administrators at UC Irvine, April 2012 and 1-day follow-up meeting Chicago, Sept. 2012)
2. Mountain States Alliance for Minority Graduate Education (MSA@MGE). Attended 1-day minority graduate education workshop. This workshop was designed to help faculty develop recruiting and mentoring skills specifically for under-represented minority groups.
