

Course Syllabus

PHYS 4420: Classical Physics II

Lecture

MW 9:40-11:35 AM, AEB 310

Course Description

This course will develop the subject of Electrodynamics, the motion and forces of electrically charged particles. We will develop from electrostatics through magnetostatics to induction and freely propagating electromagnetic fields. In the process we will develop Maxwell's Equations.

Prerequisites: PHYS 4410, and MATH 3140 or MATH 3150 or MATH 5440.

Textbook

Introduction to Electrodynamics (4th Edition), Griffiths, Pearson, 2013. ISBN-10: 0-321-85656-2, ISBN-13: 978-0-321-85656-2.

Homework

There will be roughly one homework per week (assigned Wednesday, due in class the following

Wednesday). The graded homework will be returned on Wednesdays. Students are expected to attempt problems on their own. Discussions with other students are permitted, but students should turn in their own work. Half of some Wednesday class sessions will be devoted to problem solving, together with a discussion of the graded homework. The first homework will be due on January 17.

Exams

There will be two 1-hour midterm exams: **2018/02/14** and **2018/03/28**, to be administered during the regular class time and in the class room. There will be a two-hour final examination on **2018/05/02** at 8:00 AM in the class room.

ADA Statement

The University of Utah seeks to provide equal access to its programs, services and activities for people with disabilities. If you will need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability Services, 162 Union Building, 581-5020 (V/TDD). CDS will work with you and the instructor to make arrangements for accommodations.

Rights & Responsibilities

All students are expected to maintain professional behavior in the classroom setting, according to the Student Code, spelled out in the Student Handbook. Students have specific rights in the classroom as detailed in Article III of the Code. The Code also specifies proscribed conduct (Article XI) that involves cheating on tests, plagiarism, and/or collusion, as well as fraud, theft, etc. Students should read the Code carefully and know they are responsible for the content. According to Faculty Rules and Regulations, it is the faculty responsibility to enforce responsible classroom behaviors, and I will do so, beginning with verbal warnings and progressing to dismissal from and class and a failing grade. Students have the right to appeal such action to the Student Behavior Committee.
